The strikers met to hear addresses and reports of the officers of the union. Mr. Howard urged all the men employed on those roads to protect those who had been discharged by getting together to-morrow morning and going out in a body. He called upon them to stay out not only until all the men had been reinstated but until all the non-union men who had taken their places had been made to "walk." With one voice every man shouted he would. A storm of indignation followed the declaration of Mr. Howard that General Manager Earling of the St. Paul road had notified the men he discharged that they would never be allowed to do another stroke of railroad work in the United States.

RESISTED THE MILITIA.

Dock Strikers had a Lively Skirmage at Coneaut, Ohio.

Coneaut Harbor, O., July 13.—Company E, Fifth Ohio National Guard, 41 men, arrived at midnight last night and proceeded to the harbor this morning. They marched to the docks and cleared them of all strikers from Ashtabula, about 300 in number. The police made eight arrests of leaders from Ashtabula, and in doing so fired several shots and clubbed one man for drawing a revolver on an officer. About 100 of the Ashtabula men took a boat for Ashtabula soon afterward and the remainder withdrew about town. Sheriff Allen arrived with the militia and is in command. Camp was established on the brow of the hill at the harbor, and pickets will protect the docks. Captain Day says a majority of the men refused to strike at the meeting last night and will go to work this afternoon. Last night the strikers tried to board the Grecian and take the buckets from the hold, but the captain and his men kept them off by throwing hot water. All is quiet now.

WHAT HAS BECOME OF IT?

The Tariff Bill has been Lost so far the Country is Concerned.

Washington, July 13.—Senator Hale's resolution directing the chairman of the Senate conferees on the tariff bill to report why a full and free conference has not yet been held, was taken up in the Senate to-day, discussed for an hour and a half and then, by common consent, placed on the calendar. Mr. Hale, in justifying the resolution, said that no one could tell what had become of the tariff bill and that, so far as the Senate and the country were concerned, it was a lost bill. Mr. Voorhees, while disclaiming any disrespect or lack of courtesy to the Republican conferees, defended the course pursued by the Democratic conferees as being in the interest of speedy action on the bill. They desired to perfect it, he said, "On their own lines of action" before submitting it to the full conference committee. The three Republican conferees Senators Allison, Sherman and Aldrich—spoke of the course pursued by the majority conferees as unusual; and Mr. Allison said that if the minority conferees were to be mere bystanders at the formal conference, it would be better to have the conference committee dissolved without delay. Mr. Sherman thought that the majority conferees should confine themselves to such portions of the bill as presented political questions.

After this matter was laid aside the river and harbor bill was taken up. The first half of it had been gone through at its session and the half that remained (40 printed pages) was disposed of in a little less than two hours. The bill was passed and a conference with the House was asked. Then the legislative, executive and judicial appropriation bill was rushed through at the same rapid pace; only the same rapid paragraphs providing for a re-organization of the Executive departments being reserved. The Senate at 6:10 adjourned till to-morrow.

House.

Beyond adopting the report of the conferees upon the bill making appropriations for the payment of pensions for the year ending June 30, 1895, the House accomplished but little business and that only of a preliminary nature. The entire session of the day was spent in consideration of measures on the private calendar. Two of them, one known as "The Omnibus Resolution," recommending in bulk 37 claims amounting to $1,040,000 to the court of claims for investigation, were ordered to be reported to the House unfavorably. One bill was given a favorable recommendation, and the rest of the session was occupied in discussing a fourth.

At 5 o'clock the customary recess was taken until 8 o'clock, the evening session to be for the consideration of private pension bills.

A Death Trap Arranged.

Oakland, Cal., July 13.—A report reached here from San Pablo this afternoon to the effect that the trestle north of that place had been tampered with after the fashion of the dastardly work at Sacramento. The trestle was cut and loosened rails were set in position and spikes and fish plates removed. Superintendent Wilder sent out orders last night for a general inspection of all tracks on the division. This is the first serious piece of this sort of business discovered by the track-walkers. The railroad men feel that this shows that the fighters here intend to carry out the fighting tactics after the example set at Sacramento.

ANOTHER ATTEMPT.

Kansas Will Make One More Test Case Against Insurance Companies.

Topeka, July 13.—A renewal of the celebrated reciprocal tax insurance cases has been filed in the District court against 14 New York fire insurance companies by the State, in the name of Attorney General J. T. Little and Superintendent of Insurance S. H. Snyder.

The taxes are to recover about $85,000 or about 2 per cent. of the premiums received by the companies involved since they have established agencies in Kansas. Such a tax is levied on foreign fire insurance companies doing business in New York, that goes towards the support of the local fire departments, and the plaintiffs in the case think that under the reciprocal clause of the Kansas insurance laws a similar tax can be collected from the New York companies operating in Kansas.

PULLMAN TALKS.

He Gives His Side of the Pending Difficulty.

WHY ARBITRATION FAILS.

Says the Works are Running at a Loss and He Would Not Agree to Increase the Loss Under any Circumstances.

New York, July 13.—Geo. M. Pullman arrived in this city this morning from Alexandria Bay accompanied by Robert Lincoln. Shortly before 8 o'clock Mr. Pullman gave out the following statement:

"There is hardly anything now to be said as to the position of the Pullman company, but I have so many indications of the facility with which my expressions and those authorized by me have become distorted and thus misleading to the public and of an entire forgetting of my earnest efforts to prevent the strike, that perhaps it is well that I should again make a public assurance that the deplorable events of the last few weeks have not been caused by the Pullman company taking an obstinate stand in a debatable manner and refusing to listen to reason.

The leaders of the disorder have not hesitated to harrass the public by all the means of their power because as they say the Pullman company would not submit to arbitration and now that disorder seemed to be quelled they are reinforced in their clamor for arbitration by some impromincnt newspapers, but so far as I know but very few if any business men in the country.

What is the demand concealed under the innocently sounding word arbitration? A little more than a year ago the car shops at Pullman were in a most prosperous condition; work was plenty, wages were high and the condition of the employees was indicated—by the fact that the local savings banks had in savings deposits nearly $700,000, of which nearly all was the property of the employees.

Our pay rolls for that year show an average earning of over $700 per annum for every man, woman or youth on the roll. Then came the great panic and depression of last summer. Many customers stopped negotiations and cancelled orders, and our working force had to be diminished from nearly 6000 to about 2000 in November, 1893.

The great business depression existing throughout the country had naturally resulted in a wage depression, but I secured enough work to gradually increase our force to 4200, the number on the rolls last April.

Nine weeks ago the car shops at Pullman were working with car building contracts on hand to keep them going for about 60 days and with all business forecasts leading to the belief that no considerable new orders could soon be had. The most important of the work in hand had been taken by me in competition at prices which were less than actual cost to the company of delivering the cars, without reckoning for the use of capital and plant.

This work was taken to keep the large force of men employed and to postpone and, with the hope of avoiding the numberless embarrassments to all classes of people at Pullman and its vicinity of a closing down of the works, to prevent which the company considered it a wise policy to operate the shops temporarily at an actual loss.

It is my belief that the controversy at Pullman was merely a move in the greater scheme, the shops being selected, not on account of discontent in them, but on account of their prominence in various ways and because of the chance of a show of justification for a simultaneous and causeless attack upon the railways of the country for the use under long time contracts, by three-fourths of them, of the Pullman sleeping car system, a branch of the company's business totally distinct from its manufacturing of cars for sale.

In the early part of May a committee of the employees demanded a restoration of the wages of a year ago. I explained to this committee minutely and laboriously the facts, showing that the company was already paying them more than it was receiving for their contract work, and I offered them, for complete assurance and to end all question, an inspection of our books and contracts in hand. This, and the beginning at once at Pullman, of a promised careful investigation of a number of shop complaints, seemed to end all trouble; but a day later, under the excitement of their recruiting into the new organization, the workmen closed the shops by abandoning their work, thus depriving themselves and their comrades of earnings of more than $300,000 upto this time.

The demand made before quitting work was that the wages should be restored to the scale of last year or in effect that the actual outgoing money losses then being daily incurred by the company in carbuilding should be deliberately increased to an amount equalling about one-fourth of the wages of the employees.

How could I, as president of the Pullman company, consent to agree that any body of men not concerned with the interests of the company's shareholders should as arbitrators, for any reasons seeming good to them, so decree, I would open the shops, employ workmen at wages greater than their work could be sold for, and continue this ruinous policy indefinitely; or be accused of a breach of faith.

Who will deny that such a question is plainly not a subject of arbitration? Can I, as a business man, knowing the truth of the facts which I have stated, bind myself that I will in any contingency open and operate the Pullman car shops at whatever loss if it should happen to be the opinion of some third party that I should do so? The answer seems plain.

PRENDERGAST HANGED.

Harrison's Murderer Executed Without Incident.

Chicago, July 13.—Patrick Eugene Prendergast who murdered Carter Harrison last October, was hanged in the county jail this morning. The execution was unattended by any incident of a sensational nature, the courage and demeanor of the doomed man remaining with him to the last. The assassin made no statement from the gallows. The drop fell at 11:45. Fifteen thousand people surrounded the jail at the hour of execution.

REVIEW OF TRADE.

R. G. Dun & Co.'s Weekly Commercial Summary.

New York, July 13.—R. G. Dun & Co.'s Weekly Review of Trade to-morrow will say: When circumstances are duly weighed, the strength and soundness of business in this country during the past two weeks are amazing. With the second city in this country in the hands of a mob, besides many other cities and towns, with railway traffic almost entirely stopped over the vast area between Toledo and the Pacific, with Presidential proclamations declaring the existence of an insurrection, and the passionate answer ordering half a million men to stop work, with a prolonged strike of coal miners not fully ended in many States, and with differences between the House and Senate on the tariff question so wide that duties affecting mining and manufactures cannot be anticipated, industries and trade have nevertheless gone on with sublime confidence that the people and their government would soon restore order. The shrinkage of business and the depression of values have been unexpectedly small, the failures relatively few and unimportant and there are even signs in some industries of actual progress toward recovery from previous troubles. It is a good foundation for hope that firm and wise action by the government has been upheld by the loyal people, that order has been generally restored and the blockade of transportation has nearly ceased, and the wage earners have in the main refused to arrest industries at the dictation of leaders.

The number of failures during the past week has been 237 in the United States against 374 last year, and in Canada 49 against 25 last year.

Make the Casino Season a Success.

The well known public spirit of Colorado Springs has received a further notable exemplification in connection with the Casino season about to be inagurated. Since the property of the Broadmoor company was in receivers' hands, it looked for a time as though any Casino season for the present would be impossible. But it was recognized that it would be a great misfortune were the Casino allowed to remain closed; while on the other hand a successful season, or even an earnest attempt at one, under the prevailing adverse conditions would greatly redound to our credit.

The consent of the receivers having been very cheerfully given, a number of our public spirited citizens undertook to make possible a Casino season. In the face of about every obstacle and discouragement, and by dint of the hardest kind of work, they have succeeded and as a result our citizens and visitors may enjoy the delights of a resort that has become one of our notable attractions. An orchestra of renown, led by Dion de Romandy, has been engaged and is now on the way from California; the restaurant will be conducted in a thoroughly satisfactory manner, and numerous special attractions may be looked for during the season. A grand kirmess is on the tapis, and the effort will be made to have the season a thoroughly popular and enjoyable one.

To make this season a success in every way it only remains for our people to patronize the Casino as liberally as possible. The men who have labored to make the season a possibility and who are now busy with the details of the opening, should hardly be expected in addition to go around selling tickets. While the ladies have kindly undertaken to help in this part of the work, their labors will be greatly lightened and everybody be much happier if those of our people who desire season tickets, and of course mean to possess them, will come promptly forward and subscribe for them without waiting to be hunted up. A moment's call at the office of the Chamber of Commerce, or a line on a postal card, and the thing is done. The labor that has been put into this Casino matter really merits a measure of success, and this success is assured if everybody will do a little. Subscribe for tickets, then, and be in readiness for the opening on Monday next.

The Lantern Parade.

Yesterday a bicyclist who intended to take part in the parade of the lantern brigade rode along with his wheel decorated. A youngster on the sidewalk remarked, "There goes one of the rainmakers." It was very apt. Foul weather has followed the bicycle boys all the summer in every effort so that the people were not greatly surprised yesterday afternoon when the big black clouds began to gather and soon sent down the fluid in copious draughts, as the bicycle parade had been announced for the evening. Towards dark the rain ceased for a time and the boys attempted to have the parade, but just about the time they started it began again. In spite of the threatening weather the people turned out in large numbers to see it and a good many of the bicyclers took part. The number of riders was not as large as last week but there were many handsomely designed wheels nevertheless. A lantern parade is a very attractive affair and could be made very popular. It has been proposed to have a big one on the night of Sunflower day and invite the wheelmen from all over the country who will be here then, to take part and also the big dealers from over the State. The parade last night served to advertise the races to-day.

WAITE'S FRIENDS.

Two of Them Brought to Town by the Deputy Sheriff.

THEY ARE BOTH BAD MEN.

During the Governor's Absence Two Notorious Criminals are Arrested—General Brooks Testifies Before the Grand Jury.

Yesterday afternoon Deputy Sheriff Len Jackson arrived in the city with two prisoners from Cripple Creek. They were no less persons than Dynamite Shorty and Jerry Dunn, who shot at the militia on Thursday. Dunn was captured the same day by the militiamen and both men were turned over to the deputy sheriff at Gillette yesterday to be brought down here. Why the Governor did not interfere and have the men turned loose is probably because he is now in Kansas making speeches. Or perhaps he and the militia officers took a tumble. Both of the men brought here are old offenders and have served their time in States prison. There is evidence to convict them of being implicated in the Strong mine outrage, of ordering men away from the camp and for other more serious crimes. Dynamite Shorty served a term in the State prison for cutting a man's throat at La Junta, and Dunn has also had his inning. They were looked upon as among the worst men in camp during the late strike. It was supposed that both men had gone away from the camp, but they showed up after the election on Tuesday after the Governor showed that he really intended to interfere with the sheriff in making arrests. From all that can be learned the two men arrested by the sheriff and turned over to the militia on Tuesday have been practically turned loose or put on parole.

General Brooks was before the grand jury on Monday last. What he told the jury is of course secret and it is not known that he had anything to tell. If inquiries were made of him regarding any orders he may have received from the Governor or Tarsney it is not known. It is pretty well known, however, that he has had orders which forbid the arrest of prisoners by the sheriff. It is known that he has not followed all the orders received or he would have had himself and those above him in the clutches of the law long ago. The law is very plain that excepting when under martial law the Governor cannot interfere with the processes of the courts. He cannot as commander of the militia give an order that is clearly illegal. If he does give such an order the officer who obeys it is undoubtedly indictable. The militiamen are not in a very pleasant position, at least the officers.

Dynamite Shorty's real name is McLain, and as the cognomen indicates, he is rather under size. Jerry Dunn is a big man. He picked Shorty up and tried to carry him away when the militia came for them. Shorty explained how he got his name yesterday. When he was living in Pennsylvania some years ago he made a bet that he could hold a stick of giant powder in his teeth until it burned down to his lips. He lit the powder and did the trick. Giant powder will burn like punk at times when lit. His companions thereafter called him Dynamite Shorty.

A DASTARDLY CRIME.

Militia Guarding the Victor Jail Against a Mob.

Special to The Gazette.

Cripple Creek, July 13.—Late this afternoon a fellow by the name of John Stark, Jr., enticed the little 9-year-old daughter of W. S. Curtney of this city, upon the ridge below Squaw mountain and attempted a criminal assault upon her. Little Emma was playing when Stark met her and invited her to go up on the mountain and gather some flowers with him. Childlike she trusted him and when Stark had enticed her as he supposed out of hearing, he assaulted her. The clothing was badly torn in the struggle and she was seriously injured. It seems that a miner, whose name could not be learned, was attracted by her screams and hastened to the scene, frightening the brute away. The girl was taken to the home of her father, who is a well-known man in Cripple Creek. A warrant was sworn out for the fiend, who was recognized by Stark by this miner, before Justice Melin, and Deputy Sheriff Tony Barron and a posse of five men went to Barry, where he lives and arrested the man, locking him up in the Barry jail.

As soon as the matter became known, loud became the threats of lynching that were heard on the street. A detachment of the militia was thrown about the jail to protect the prisoner from mob violence. At a late hour last night all was quiet at Barry. An effort to get Stark's version of the affair proved fruitless as strict orders had been given by the officers to allow no one to talk to the prisoner.

Stark is said to have relatives in Colorado Springs. He will be given a preliminary hearing to-morrow if the excitement cools down considerably.

Sam J. Smith, one of the miners employed in the Victor mine, met with a serious accident this afternoon. Just before leaving the shift he went to the station to get some caps. After taking out the required number from a half empty box he started to close it when they exploded, peppering the right side of his face and body with pieces of the metallic shells. He is badly injured but will recover. It is supposed that some of the hot grease from the candle which he foolishly placed on the lid of the box caused the explosion.

LEADVILLE HARD CARBONATE.

Free Fluxing Ore Has at Last Been Found at Cripple Creek.

Free fluxing ore has at last been discovered in the Cripple Creek district. To the uninitiated this may not mean much but to mining men and to Cripple Creek it means a great deal. Yesterday about the happiest man in this city was Mr. Joseph O. Hardwick. For several days he has been imbued with the idea that he had a big thing on his claim adjoining the Copper Mountain and at the foot of Mineral hill, but not until he was handed the certificate by Assayers Milner & Brown did he realize fully what he had.

Mr. Hardwick is an old Leadville miner, and no sooner had he uncovered this stuff at a depth of twelve feet than he recognized the familiar lead carbonate formation, which has been sought after so persistently in the gold district. An average specimen was sent down here to the assayers and another given to a Cripple Creek assayer. Yesterday Messrs. Milner & Brown handed Mr. Hardwick his certificate which showed 55.2 ounces silver, 71-100 ounces gold, 45.3 per cent. lead, and 3-100 per cent. copper.

Mr. Milner says that the stuff is the regular Leadville formation of lead carbonate and that a picked specimen ran over 70 per cent. lead, while .6 per cent. is as high as any of the Leadville hard carbonate ever runs. The above assay certificate shows that that piece runs about $60.

When seen yesterday, Mr. Hardwick said that there was no doubt now about their having the old hard carbonate formation, and that when this was developed, Cripple Creek could boast of free fluxing ore. He thinks there is a large amount of it in that vicinity as there have been specimens of a similar nature taken from other claims in that vicinity. He says that he is satisfied that he has a bonanza. When asked the name of the claim he refused to divulge it, saying it was not for sale and that he did not care to talk further. From others it was learned that it lies next to the Copper Mountain claim.

The finding of free fluxing ore at Cripple Creek will remove the barrier against smelters for Cripple Creek. In the past the refractory ore has been shipped away to be smelted. With the flux there, and plenty of water, as at Beaver Park, and other places near Cripple Creek, it is said that there will be nothing in the way of the development of a smelting industry.

The Hallen & Hart company appeared at the Opera House last night in "The Idea." It was the second time the performance had been given here and was therefore not particularly new. The audience enjoyed the show very much however. Most of the work of the performance fell upon Mr. Hart as Mr. Hallen got separated from the company and has not been able to reach them again since the railroad blockade began. As a play "The Idea" is pretty thin, especially the second act. It is the people alone who make the show. Hallen and Hart are both good attractions and they always have the very best in the way of specialties with them. Hart's singing was the feature of the show. Little Carrie DeMar was as bright and clever as ever. The Misses Murray and Grovini gave a sensational dance that was very clever in its way. Miss Julia Mackey the baritone singer, occupied a large portion of the programme. She has a remarkable voice which she manages very well but with the encores she received and the length of the pieces sung it became somewhat trying. As a novelty her singing was all right.

FROM MANITOU.

CLEVELAND'S COMMISSION.

President Cleveland, acting under authority of the law of 1888 has decided to appoint an arbitration commission to investigate the causes of the recent labor troubles, the conditions accompanying it and the best means of adjustment. The committee will have no power to enforce its decisions, but must contend itself with a report of its conclusions to the President and Congress. Incidentally it is asserted the committee will in the course of its investigations take a somewhat wider range and inquire into the general condition of labor throughout the country, estimate the extent of the present industrial depression and endeavor to ascertain the causes which have led to it.

In some respects this commission will be a good thing. The condition of labor and its relation to capital is certainly one of the most important and liveliest questions now before the public, and any new facts that the commission may be able to bring out or to establish will be of public benefit. Its recommendations too will doubtless be of great weight. If it censures the American Railway union for unnecessary strikes over the Pullman difficulty or holds it responsible for the violence and anarchy at Chicago; or if it blames the Pullman company for refusing to accede to the demands of the workmen and others for arbitration, the verdict of the commission will be accepted by the majority of the general public.

But in the larger way of determining the causes of industrial depression and the suitable remedy the opportunity before the commission is not likely to be improved. The commissioners, it is true, might say in their report that two years ago the country was in a state of unparalleled prosperity, that factories were busy, workingmen employed, trade active and the wealth of the country increasing at a rapid rate They might say that during the campaign of 1890 the Democratic party proposed an industrial system the reverse of that under which these conditions of general prosperity had been attained, and that is was freely prophesied by those best acquainted with the conditions of commerce and manufactures in the United States that the attempt to carry out the Democratic policy would bring disaster both to capital and labor. The commission might point out that the Democratic party, having come to power has not had even the grace to carry out its promises of change but has left the country in a state of suspense which has become unbearable, the business men being able to adjust themselves neither to the old policy which was attacked nor to the new one which was impending. The commission might further say that the President of the United States acting upon the advice of those selfishly interested set himself to force a change of financial policy upon the country and did this in such a way as inevitably to cause the panic which he affected to shun The commission might say that by the demonetization of silver commerce had been drained of one-half of its life-blood, and that by the consequent depreciation of all kinds of products farmers had been brought to deprivation and workingmen to idleness and want. The commission might further say that the endorsement given by Democratic leaders and Democratic platforms to specious forms of socialism and anarchy, the persistent and open disregard of political rights and national laws in the South, and the alliance and endorsement of Populism in the West, have had a powerful influence in fomenting and encouraging the spirit which found its culmination in the burnings and the shootings in Chicago and other American cities.

But it not likely that a commission appointed by Grover Cleveland will say any of these things, however true they may be It may indeed call attention to the fact that the lawless mob was composed very largely of foreigners ignorant of the English language and of American institutions, and it may advocate and suggest some further restrictions upon immigration and naturalization But with a commission that is almost certain to ignore the tariff and silver, or to consider them only in a partisan or superficial way it is folly to expect any conclusions of great importance

Nevertheless the appointment of this commission by the national government, the first under the law of 1888, marks an important step in the relations of the national government to interstate commerce and the outcome of the investigations will be awaited with interest.

Much satisfaction is being expressed in Northern newspapers over the recent declaration in the Senate by ex-Confederate General Gordon of Georgia. On the day on which Senator Davis of Minnesota delivered the patriotic oration already alluded to in these columns, Senator Gordon declared that the liberty-loving people of this country would unite and save the country, and added:

"The day is not distant, it is upon us now, and I stand here not as a Southern man, but as an American citizen, to proclaim, and I would that my voice could ring through the heart and conscience of every law-breaker on this continent, that the men who wore the gray from 1861 to 1865 and confronted the Stars and Stripes in battle under great convictions will be found side by side with the men who wore the other uniform, following that same flag in upholding the dignity of the republic over which it floats and of every law upon the statute books."

There is no stronger character drawing in American fiction than is constantly being shown in Edgar L. Wakeman's "Tales of Ten Travelers." The almost relentless realism and fidelity of his protraiture of an ignorant, heartless, ambitious and home-destroying woman in "Once Upon a Time," printed in to-morrow's Gazette, is in itself a great social lesson; and it certainly foreshadows the powerful work to be found when Wakeman's extended novels, several of which are already completed, shall have been given to the public.

The Populist Incubus.

It is a fact which the Populists cannot ignore that disgrace attaches to their party as a whole, and not merely to one or two men who are conspicuous in its councils. It makes no difference whom they nominate for Governor, the duty will still be just as binding upon intelligent voters to defeat their ticket as it will be if they nominate Governor Waite. Governor Waite is their logical candidate, and it is probable that he will be nominated, but whether he is or not, Populism will be none the less an incubus upon Colorado which all good citizens should endeavor to throw off. (Denver Republican.

Tuesday's Outrage.

The Cripple Creek Journal which has stood so fearlessly for law and order during the late trouble among the striking miners, says of the action of Governor Waite, Tuesday, at the Victor election:

"If it is true that a man was arrested for murder in this camp yesterday and turned over to the militia, and by them turned loose on the order of Governor Waite, it is an outrageous proceeding that deserves the severest censure by every law-abiding citizen in the State. It is a high handed proceeding unheard of before in the history of any State of the Union, and is such a violation of justice that The Journal cannot believe it to true. If it is true the court from which the warrant was issued should look into the matter and make a vigorous inquiry as to the lawful right of the sheriff to give the prisoners into the hands of the military authorities of the State instead of producing them into court as commanded to do by the writ which he serves. A dicker to defeat the civil authority of the State, even if made with the Governor, is too grave an offense to be allowed to go unrebuked. If those who set up in Cripple Creek, or in any other part of the State, a military despotism to which the civil powers must bow an assent to gratify the whims of an usurper of power, though he may be Governor, it best be known at once that the position of citizens may be defined."

SORRY HE CAME.

The Duke d'Auxy and His Many Troubles In a Strange Land.

[Special Correspondence.]

PHILADELPHIA, July 9 Of all noblemen that have come to the United States the Duke d'Auxy of Belgium is probably the one that most regrets his coming Ever since his most-hero his wife, an American widow, cousin to the late Supreme Court Justice Lamar, has been engaged in litigation with relatives of her former husband, and during most of that time the duke has been dancing attendance upon his wife in the vain hope that the litigation would end. The ducal pair have lived most of the time at one hotel or another in and about New York, have made no figure in society and have been as simple and unostentatious in manner of life and in their attitude toward acquaintances as any one could expect a pair titled or untitled to be. Meanwhile one trifling annoyance or another has of late years brought the duke himself into court, and he has finally been made to testify that he has a personal bank account of but 15 cents and is dependent upon his wife

This would be hard enough for a make believe duke or a duke of newly purchased fustian title. But the Duke d'Auxy is the real thing His family is very ancient and honorable The title is not new, and the ancestral estates are large The poor man, amid all his humiliations, has had the additional embarrassment of living a stranger in crowded hotels, for he has not learned English, and he seldom exchanges a word with persons who do not speak French. When he lived at the now vanished New York hotel, he sometimes sought the companionship of the French speaking agent of a champagne house and occasionally played whist with English speaking persons whom the duchess knew. Now that he and his wife are keeping house their names never figure in the reports of fashionable doings, and few persons that meet this high shouldered, French looking little man in glasses suspect that he is the possessor of a dukedom.

Ambidexterity.

They were talking about ambidexterity.

"I can write just as well with my left hand as with my right," said one, "though perhaps not quite as fast."

"I'll bet you $5 you can't," was the response.

"Done," and having put up the money he took the other man into the next room, where he had a new typewriter he was learning on, and with his left hand he thumped out half a dozen lines, which the most skilled expert could not have detected from the same written with his right hand. BAPTIST YOUNG PEOPLE'S

Excursion to Toronto and Return—One Fare.

The Burlington Route has been designated as the official line from Colorado for the Baptist Young People's excursion to Toronto. The low rate of one standard fare will be made for the round trip from all Colorado points. The official train will leave Denver at 9 p. m July 16th, and all those who desire to accompany the excursion party and wish to secure through sleeping car accommodations should send in their names at once to Frank E. Harrington, P. O. Box 1483, Denver, who has charge of the excursion.

This low rate, however, is open to everyone, and all those who wish to avail themselves of it can purchase tickets July 16th and 17th, good to return from Chicago August 7th. Parties purchasing tickets via the Burlington route secure the advantage of fast vestibuled trains leaving Denver daily at 9 p m, affording better accommodations and quicker time than any other line. For full information call on J. M. Ellison, local ticket agent, or address G. W. Vallery, general agent, 1039 17th st., Denver.

NO EXTRA CHARGE

YOU MAY STRIKE IT RICH.

If you could pick up $11,000 in gold by one week's work, it would be worth going a few hundred miles to get, wouldn't it?

That's just what the Aztec mine (Colfax Co., New Mexico), produced in seven days, with total product to date of nearly a million dollars.

This rich mine is one of many in the newly-discovered Moreno Valley and Ute Creek placer and quartz gold districts. Take Santa Fe route to Springer, N. M., thence stage to the camp.

Short winters, healthful climate and rich prospects. This may be the chance of a lifetime. Ask local agent A. T. & S. F. R. R. for illustrated pamphlet. It tells the truth about this new country.

Commodious and easy four-horse stages leave Springer every week day at 7 a. m., arriving at Cimarron (23 miles) 11:30 a. m, and Elizabethtown (50 miles) by 5:30 p. m Passengers for Baldy connect at Ute Creek with separate coach to that camp, arriving 5 p. m. Those destined to Amizette can go from Elizabethtown by horseback or on a tri-weekly stage. The stage fare Springer to Cimarron, is $2 50; to Baldy, $4; and to Elizabethtown, $5; with 10 per cent. discount for round trip. Twenty-five pounds free baggage allowed on stage.

GEO. T. NICHOLSON, Gen. Pass. Agt.

Sixty hours to New York City via Rock Island.

WHY TAKE THE WABASH

For St. Louis?

Because it is the shortest line, the best equipped line, runs free chair cars, buffet Pullmans, and gives you ample time in Kansas City for supper.

For Toledo or Detroit?

Because it is the shortest line, avoids transfer across the city in case you are going farther east, and makes close connections with all trunk lines.

For New York or Boston?

Because it has solid through service from both Chicago and St. Louis via Niagara Falls; gives forty minutes stop at the falls at seasonable time in the morning.

For all other Eastern Points?

Because its service is uniformly good and you can make no mistake in asking for tickets via the Wabash. C. M. HAMPSON,

Commercial Agent, 1224 17th St., Denver.

cided influence on mining operations in that section.—(Crusher.

Front Range promises to be the coming camp outside of Cripple Creek in this section. With Cripple Creek, Balfour and Front Range as shippers Colorado Springs will be in it as she is naturally the headquarters for all three.

After remaining shut down for several weeks a force of miners were put to work on the Independence Wednesday. A large force of carpenters and machinists are at work on the hoister, but it will be several weeks before it is ready for use.

The Ela Helean Gold Mining company has just completed a ventilator. Superintendent Dickey was forced to do this as the men were driven out of the workings several times by bad air. There will be no danger in the future, however.

President Phillips of the Broken Hill Gold Mining company has received a bid for 100,000 shares of treasury stock from a well known Philadelphia banker and will probably accept it; this being the case, all treasury stock will be withdrawn from the market.

Denver is built on rich auriferous ground. In speaking on this point Assayer H. E. Wood remarked yesterday that tests of dirt from the foundation of the Cooper building ran two cents and upwards to the yard. The whole lower portion of the city would pay well could it be piped off on a large scale, as is done in California.—(Record.

S. A. King has a fine streak of ore in the Mendota, or more properly speaking the Rockford, says the Silver Standard. Mr. King has been drifting about thirty feet on the streak and in that distance has taken out over fifty tons of ore. The streak improves as it is opened up and the breast of the drift now shows from thirty inches to three feet of solid ore from which a recent mill run returned 127 ounces silver, 1.10 ounces gold and 52 per cent. lead to the ton.

It is pleasing to note that the Seventy-thirty mine is rebuilding the shaft-house and other buildings that were destroyed by fire. The Silver Standard says: "A great deal of lumber has been taken to the Seventy-thirty recently for use in the new buildings to replace those that were burned. A boiler house, office and a large ore house 24x60 feet have been completed, and a blacksmith shop will soon be erected. The air compressor, which suffered considerably in the fire, has been overhauled and put in running order."

Victor Notes.

Squaw and Grouse mountains are taking a new start. In the last few days there has been quite a number of the old claims resumed work, some under lease and bond and others by owners.

The Dead Pine is starting up under a lease and bond of $100,000. Carbonate King is also working on bond and lease of $60,000. Mr. Washburn is working two or three properties near the Coriolanus. The Coeur d' Alene is hoisting some nice mineral. The boilers are in place on the Independence and the pillars for the foundation of the engine are nearly completed. About 30 men are working in and about the mine and just as soon as the machinery is in place the mine will be run full blast.

The Blowout lode on Miller gulch, mention of which was made last week, keeps improving with depth.

Brass and partners have a good lot of mineral ready for shipment. The mineral looks good and is a very porous quartz three to four feet in width. The vein is almost perpendicular and varies in width from four to six feet.

On Wild Horse gulch the Montana Bar and Amazon lodes are looking fine. The Amazon is down 70 feet with a well timbered shaft and a dump which is very heavily mineralized.

The Mamie S. has a large vein of some 20 or 30 feet wide which looks like it might make a mine without a great deal of work; in fact it looks good enough on the surface to be pay mineral right away.

The Little Bessie is showing up nicely. They are using slabs for lagging and they make a very pretty shaft.—(Journal.

RESTORES Natural Growth OF THE HAIR —WHEN— ALL OTHER Dressings FAIL

"I can cordially indorse Ayer's Hair Vigor, as one of the best preparations for the hair. When I began using Ayer's Hair Vigor, all the front part of my head —about half of it—was bald. The use of only two bottles restored a natural growth, which still continues as in my youth. I tried several other dressings, but they all failed. Ayer's Hair Vigor is the best."—Mrs. J. C. A WORD WITH YOU.

Two blades of grass where there was one before. That's what our garden hose makes; and that's what Jerry Simpson says is "honest productive effort." Think of it! Velvety lawns, fruitful gardens; refreshened, rarefied atmosphere. This is the picture our garden hose calls up, and makes you feel a fatherly interest in all creation. After the evening meal he gives to the grass and flowers the drink that the skies have denied, supplementing Dame Nature's work, correcting her shortcomings. We can find poetry in garden hose. You can not find profit in cheap garden hose. We sell the most durable garden hose in the world. Don't forget that we are leaders in hose novelties.

Prosperous Colorado Springs.

The times are out of joint in almost every city and state in the Union; business is dull, factories are closed, building has ceased, and men are idle. This condition of things is slightly felt here, but only in a sympathetic way, and it should not be felt here at all. While panic conditions prevail elsewhere, ***Colorado Springs is a prosperous town.*** New dwellings are being erected in all parts of the town. One new business block has already been built this year, and another one is under way; a splendid *Coliseum* is to be built at once, and when it is done it will make Colorado Springs a convention city, and draw money from all parts of the United States; the Casino bids fair to be opened for the season; gas has been discovered at Colorado City, and Cripple Creek daily adds wealth to the town. The town is full of people, and houses to rent are scarcer than they have been in five years, despite the hundreds of new houses that have been built. We advocate real estate investments in this town. That advice on our part is an old story, and we have paid a good many hundred dollars in advertising it; but the advice is better to-day than it ever was. Since we have been in business here a great many Colorado Springs men have invested their money in Denver, Salt Lake, Ogden, Galveston, Pueblo, Helena and other places. We venture to say that those same men will admit that they would be fifty per cent. better off if they had invested in real estate in Colorado Springs.

But if this town were ten times more prosperous than it is you could not make any money here unless you tried. There is no money made by wearing a long face, standing on street corners, and croaking.

We will trade real estate for mining stocks; we will trade the real estate at its value, and want the stock at its value. We will trade mining stocks for real estate. We have money to loan on real estate; we want to loan only on good property, and to men who will meet their obligations. We offer all kinds of real estate for sale on easy monthly, quarterly or annual payments.
